

Drug related overdoses in German DCR

DCR Save drug users life

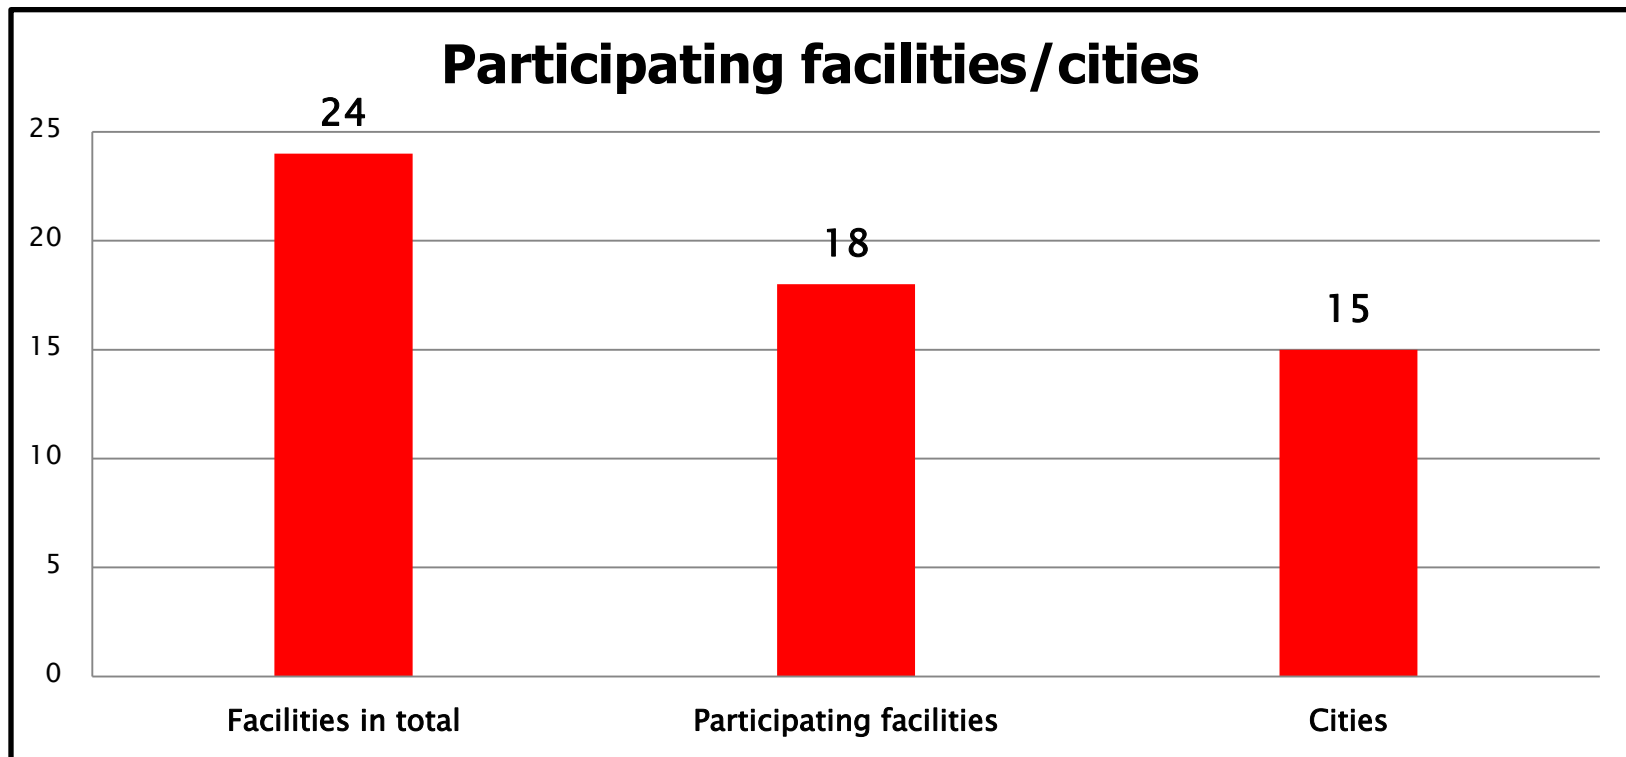

Dirk Schäffer

Officer for drugs and prison issues

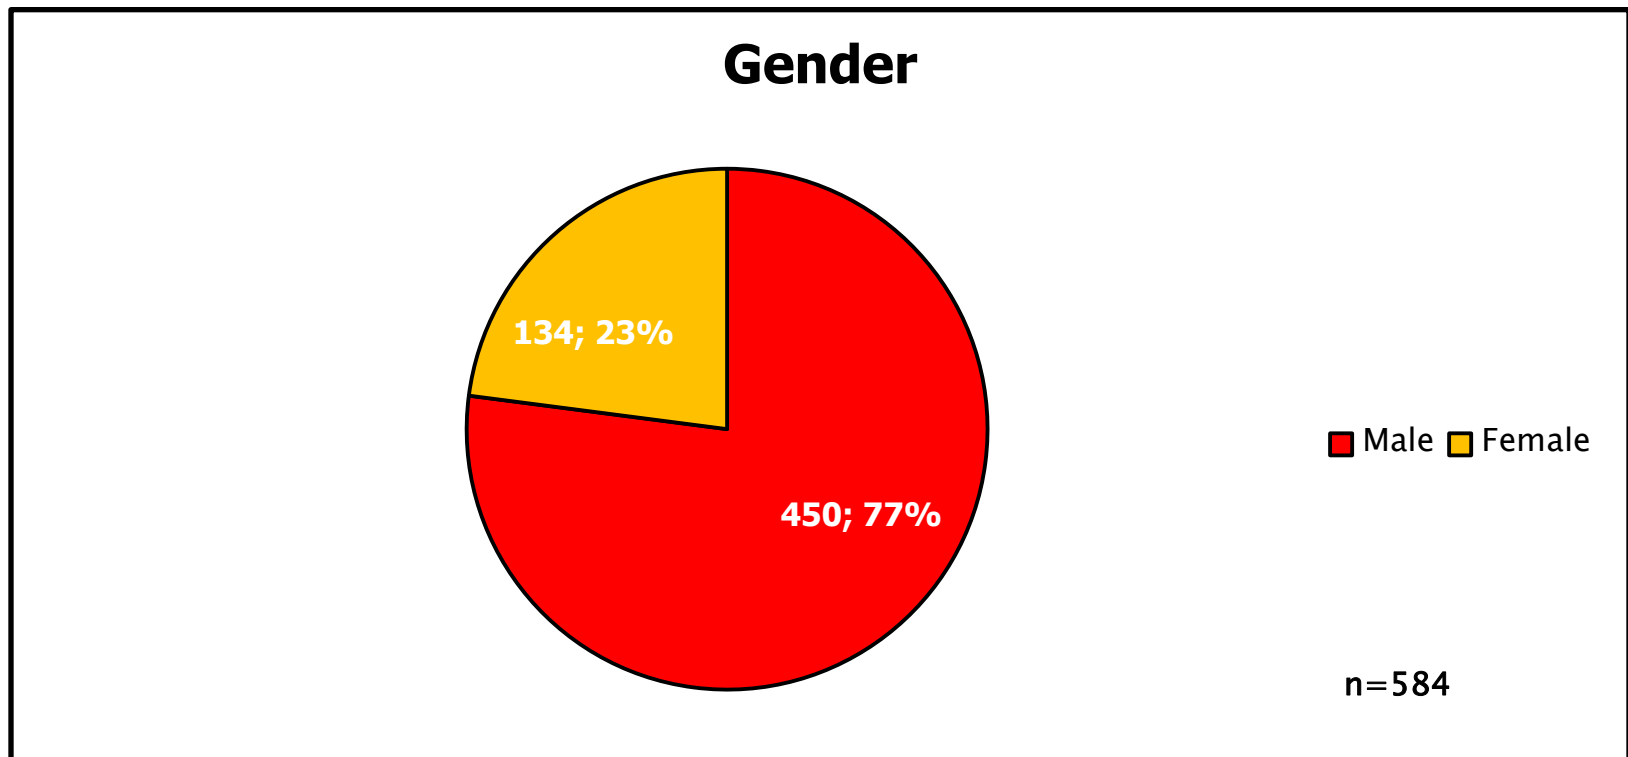

DCR in Germany – a overview–

- Since 1993
- Today 24 rooms and 15 cities
- Hamburg 5, Frankfurt 4 and Berlin 3 (1 mobile room)
- Only 6 of 16 Länder (states) implemented DCR
- Opening hours 3–23, depends on budget
- No national data available (federal political system)
- www.drogenkonsumraum.net

Conclusion

- DCR safe drug users lifes
- Without dcrs the numbers of drug related deaths in Germany will strong increase
- With the expansion of dcrs – especially in bavaria– the number of drug related deaths will decrease
- The hygienic conditions reduce the risk of drug–related diseases such as HIV, hepatitis and abscesses.
